PROCESS ENGINEERING

- Automation & Controls
- Chemical Process
- Bulk Processing

COMMISSIONING

- LEED and Fundamental Commissioning

SUPPORTING MILITARY AND DOD MISSIONS

IMEG CONSULTANTS CORP. (IMEG)

We focus our multi-disciplined experience and technical expertise to solve mission critical needs for a variety of Military & DOD clients. This focus allows us to support our clients and A/E partners to ensure quality documents are **delivered efficiently, on cost, on schedule**, while capturing the full project scope that satisfies the project requirements.

We support projects of all sizes and complexities for federal clients across the country - ranging from small to very large, complex projects and from conventional project design to design/build and other delivery methods.

We have completed over 800 DOD projects in the last 10 years. This depth of experience gives us the opportunity to impact the federal market in new and innovative ways, and offer **unique analysis during the planning, design, and construction phase of your project.**
