SUPPORTING FEDERAL HEALTHCARE

IMEG CONSULTANTS CORP. (IMEG)

For over 25 years IMEG has helped the **VA and other DHA agencies** create healthcare facilities that deliver an elevated patient experience in an environment that is safe, secure, flexible, reliable, redundant, and energy efficient. Our federal healthcare specialists have engineered nearly every type of project from clinics to major healthcare campuses.

Our federal healthcare work includes hundreds of projects including open-ended government contracts for master planning, facility assessments, and engineering design.

Our full-service healthcare engineering planning and design work, along with consulting and advisory services, prioritizes performance, integration, and efficiency – leading to our reputation as one of the top healthcare engineering firms in the U.S. and **#1 ranked Veterans Affairs engineering firm** (based on 2022 BD+C rankings).
